THE NEW BOULEVABD

Yesterday the Lord Mayor had a long interview with the Minister on the subject of the proposed new Boulevard which, according to Mr Alevear's project, is to start from the Plaza Victoria and run through the middle of the blocks between Victoria and Rivadavia, to the Calle Callao.

The Lord Mayor's note to the Government on the question is a paper of importance and asks for the assistance of the Board of Engineers to study the question prior to laying the matter before the next Congress, to obtain an expropriation law. Owing to the great depth of the blocks in this city, it is thought that the bisection of those included in the proposed scheme will give new values to the rears of the valuable properties on Calles Rivadavia and Victoria.

On the other hand, there is a very numerous portion of the Municipal Board opposed to the present scheme and in favour of utilizing the present Calle Rivadavia and making the Boulevard by taking off ten yards front on one side of the street; but Mr Alvear opposes this, as it would leave one side of the Boulevard of a broken symmetry. The Lord Mayor's Boulevard is to have for every block a different style of architecture.

We may add that next week a proposal will be laid before the Municipality, by a body of foreign capitalists, to make the boulevard for account of a joint stock company. This subject of Boulevards is now the uppermost, and nothing else is talked of in the Government House or Municipality, yet it will need much to push the matter to a final success.

OUR FUTURE!

For the first time in the history of the Argentine Republic we may speculate with satisfaction and confidence on the future destinies of the country. Formerly our horizon was limited and closed in by a fatal condition that opposed itself to all our hopes and aspirations: 'Should Providence grant peace to the country.' We all felt that the progress of the Republic depended on its internal tranquility, and at the same time we felt as if we were leaning on a broken reed. Our editorials were preceded by such words as these: 'If Providence would bestow a few years of peace on the country.' 'Should the bitter passions and animosities of parties be effaced.' 'Should Argentines at last be made to feel the shame of witnessing continual scenes of disorganization, cruelty and bloodshed' etc. We did not dare to picture the future without some such conditional addenda. A salutary change has operated in the length and breadth of the Republic. Many abuses remain that must be eradicated; the people must be regenerated and educated; the laws must be enforced impartially so that the peasant shall no longer hold the word justice in terror as he does now; authorities must be taught or obliged to set an example of obedience to the precepts of the Constitution; integrity must be set above dishonesty, virtue above vice, capacity and intelligence above ignorance and worthlessness. But we may hope that on the complete settling of our troubled waters the better elements may permanently rise to the surface. At all events we are authorized to address words of encouragement to those who look on the Argentine Republic as a field for emigration. Come now without fear, we say to all. Come and take peaceable possession of the land that will call your children Argentines. What region offers more inducements to the emigrant of the old world than the Argentine Republic, with its guarantees of peace and progress?

What part of the world offers more advantages to the hungry but industrious proletaries of Europe? Where will be found such a happy combination of a healthy climate, delicious temperature and fertile soil? For the inhabitants of the northern parts of Europe, accustomed to the cruel colds of a six months winter, we offer them a delightful modification of their wretchedly cold climate in the plains of Patagonia, where the winter makes a good warm overcoat indispensable, but where the peasant can witness his cattle pasturing all the year round in the open fields. There can be no man so fond of cold as to prefer a temperature of 40 below zero to 20 above. We were brought up in a cold country ourselves, but we always felt more comfortable with the mercury at ten above than ten below zero. We want ten thousand German or Swedish families at once to take possession of Nahuel Huapi, breed cattle, produce wheat, and rear a stalwart future race of Argentines to guard one of the roads leading to Chile. Never mind if they do not learn Spanish for a century or two. Great Britain has two hundred millions of subjects that cannot talk English. The Argentine Republic possesses zones that will suit all the nationalities of the earth. What can surpass our temperate zone where herds of cattle, millions of sheep, fields of wheat, maize and flax promise prosperity to all new comers? Where are there sheep runs equal to those of Buenos Aires? Where do we see such general agricultural prosperity as in the colonies of Santa Fe? Entre Rios and Corrientes unfortunately are not yet civilized, but what a promising hope for the future they present! For the natives of the torrid regions of Europe, the Argentine Republic offers them a similar but far more agreeable climate, where they may dedicate themselves to wine, sugar, tobacco or silk growing, and surround their dwellings with orange trees whose fruit is superior to any that Seville produces.

LONDON LETTER.

(*From our Own Correspondent*)

January 27th, 1882.

The very insignificant difficulties of a London correspondent of a Buenos Aires paper illustrate a very large subject. Within the last few hours and the next few hours, there will have left for your port three rapid conveyances: the Pacific steamer from Bordeaux, the Royal Mail from Southampton and the Maskelyne from Liverpool. We have had no previous opportunity of writing for a week. The question illustrates the difficult problem how to secure the benefits of private management and enterprise with proper State supervision. It seems to me that many difficulties of the kind now alluded to would be overcome if the Royal Mail Company, for instance, chose, or were made to choose as a condition of contract, to adopt the Pacific Company's plan of appointing the sailing of steamers on days of the week instead of on certain days of the month. The latter system is antiquated and recalls the time when long voyages were thought much of and people had leisure to look up dates as they still look up Bradshaw if they are going to Dublin or Caithness, whilst for shorter trips they call a hansom and simply drive to a station on the chance of catching a train. Barring the overcrowded state of the Atlantic steamers and the necessity of securing berths beforehand, one could even now drive down to Liverpool on a fine Saturday morning, and without the trouble of previous inquiries put oneself on board any steamer with the blue-peter up for New York.

The subject is worth your attention. In the present case, a merchant in London can send his duplicate and triplicate, but cannot have much more to add this morning to what he has written last night, and there is no other opportunity until the French packet.

As for general news, if it were of much importance now-a-days, except when transmitted by telegram, all I could send you to-day you ought to receive in this morning's paper. What I could send you at 5 30 p.m. this evening you will receive in to-morrow's papers from Liverpool. The whole difficulty, as far as I can see, is in the stupid arrangements of the Royal Mail Company, which since it came into existence has imagined itself a natural monopoly, and has in consequence been ever behindhand. On the other hand, the continuously-growing question of Government monopoly is unfavourably exemplified in the dilemma the English Government finds itself in regard to its purchase of the telegraph system from private companies. It is now obliged to buy up the telephone companies, and in the meantime, owing to the doubtful position of the private companies, the science and practical application of telephony have in this country been less progressive than in other countries; and the question is, will the science prosper under a Government monopoly, and what will be the attitude of the Government in respect to new inventions in a science still in its infancy? With your recent experience in regard to the Great Southern Railway, you know the beginning of this great question and the vital importance of its right solution to Argentine interests. We cannot lose sight of the fact that however repugnant the idea may be to many of us educated in those 'laissez faire' principles which are often erroneously identified with free trade principles, because the 'mot' of the French merchants, 'laissez nous faire,' was chosen as an illustration by Adam Smith, the new conditions of society in our time will necessitate more and more a resort to centralisation.

The English Government, like all Governments of the old-fashioned political type, and containing no scientific element or representative, is adopting the expensive method of buying up inventions and the companies which work them as they appear. In the case of the telephone, the companies at present pay a tax or royalty to the Government, and have at the same time to compete on very unequal terms with the Government. Perhaps the better plan would be for the Government to pay the tax to the companies, as is done now by arrangement with railways in carrying mails and war material. The private bids of companies would pass through Parliament with certain conditions, giving the option to the Government to insist on some privileges for the benefit of the State; otherwise, if the Government purchases out and out, it must in self-defence stand in direct opposition to the inventor and to scientific and mechanical progress. The tax paid by the Government should be sufficient to equalise rates, and it must be confessed at

Can be used with COLD WATER. Sole agents MOORE and TUDOR. BEWARE OF IMITATIONS AND FALSIFICATION.

the same time to equalise and lower dividends. Hence one powerful stimulus to the promotion of companies would be withdrawn. On the other hand, the great private monopolies in the cases of gas and water, which render such enormous dividends to original shareholders, are quite as injurious, more irritating and less easily remedied than Government monopolies.

If you have studied the excellent wool circular of Messrs. Bowes you will have observed two things, firstly, the gradual diminution of consumption of clothing wools in this country for the last twenty years and the proportionate increase in the re-export of these descriptions to the Continent, and, secondly, that although in last year there was an increase in the imports of Australian wools of 7 per cent. and a decrease of River Plate and Cape wools of 4½ per cent., it is not expected that in the present year there will be any increase in the exports from Australia. By the more recent calculations of Messrs. Charles Balme and Co., the prospects of higher prices of wools are still more flattering. Indeed, were it not for the present state of affairs, political and financial, in France, and the consequent dulness of demand in the great woolen factories in that country, you would certaialy have received better reports by the late mails. Only 62,463 bales have arrived for the February sales in London. The stocks in hand are light, whilst for both the English and German branches of the industry there is a brisk demand, in face of short supplies from Australia and an actual falling off in the home clip of ten millions of pounds.

It is not easy to foresee what will be the effect of M. Gambetta's resignation, just announced, on the political and commercial position of France and of Europe.

To all you will see on the subject in the papers of to-day and to-morrow, I would only add that the inordinate and apparently impolitic adherence of the late French Premier to the 'Scrutin de Listo' is not necessarily a proof of personal ambition. A Government, and, above all, a Republic of cliques, is an absurdity. The different 'nuances' of which the present Chambers are formed may have coalesced to support M. Gambetta in certain cases against ducal or clerical influences, and with the same ease they have combined to administer to him a crushing defeat. The same thing will occur to M. de Freycinet or M. Say, and President Grevy can repeat in their regard the prediction he made, when, as I have reminded you before, he gave M. Gambetta three months of office. He has been in power two months and a-half. If in the Republic the people are to rule, the 'Scrutin de Liste' is the only means of reaching the main depositary of power and of forming on that basis a strong and durable Government, unhampered by social influences, personal, sectarian and financial intrigues. The industrial as well as the external political relations of France require a strong Government to 'recuperate'—that is the word M. Gambetta has employed in his very last speech. It is begging the question to assume that 'recuperation' is used unpatriotically or for personal motives, or for national and military revenge.

THE POLITEAMA.

No doubt the enterprising lessees of the Politeama must have heard of the English proverb 'that good wine needs no bush', as without any puffing whatsoever the house was opened on Thursday night with a brilliant Opera Company, and as for the principal characters they were really admirable, taking the audience by surprise, as no one expected anything so good. The prima donna Rambelli has a magnificent voice of great power, well trained and cultivated; her acting is very good, and her physique splendid; you feel a desire to see her in Norma. The tenor, Sr Bertini, won the sympathy of the public the moment he opened his mouth and received the well deserved applause of the public throughout the Opera. The baritone and bass are likewise fine artists, finished musicians, and played and sang their parts perfectly. What a pity that Messrs Moreno and Ciacchi did not contract the company for 2 months instead of three performances: they would be sure to fill the house. To-night is Trovatore, when we will have the opportunity of hearing another artiste, la Ricci, of whom report speaks in the highest terms.

If the public want a musical treat, they must go this Saturday night to the Politeama, and there is not a shadow of a doubt but the house will be crowded to overflowing.

The Old Stager.

The newest thing proposed in the railway line is that a complaint book be kept at the city terminus of all the lines, in order that the public may put their grievances on record whenever a train is two minutes late, or a guard or porter looks crooked at them. Rubbish!

EDITOR'S TABLE

The great heat and speculations as to when the expected rumpus in Montevideo is likely to commence were the matutinal topics yesterday. The telegrams from the sister city are alarming enough, but many people think that there is far more smoke than fire in the business, and that there will be no disturbance, at least for the present. Colonel Latorre, who was said to be in Entre Rios, was at the Politeama on Thursday night, listening to the new tenor, who is a magnificent singer and warbles 'spirito gentil' in a style that Gayarre himself could hardly surpass, and which made the house 'rise at him.' 'Old Stager' sends us a few notes of the performance.

In our Supplement will be found a chapter of much interest to our Scotch readers. The venerable and universally esteemed Revd. James Smith will retire from the direction of the Scotch Church next year, but we are most happy to add that he does not intend to retire from the country, but will continue to reside here, where he has such legions of friends.

Bradlaugh's expulsion from the House of Commons by such a sweeping majority was not generally expected. The sturdy sceptic showed no fight this year, we presume, or our cablegram would have said so: His battle with the police last year is doubtless fresh in our readers recollection.

A morning colleague complains that its reporter was refused admission to the Exhibition, on the ground that he would 'be in the way of the workmen.' He must be a thundering big reporter. The peep he got at the painting and decoration of the Section allotted to the Argentine Provinces had a bad effect on him, judging from his remarks.

Mr Michael Delany presented yesterday to Governor Rocha a beautiful model of the cells, warders' rooms etc in the Mountjoy Model Prison in Dublin, as a model for the new Provincial Penitentiary in the Sierra Chica. It is beautifully made. The Penitentiary at Palermo was intended to be an exact copy of the Mountjoy Prison, and is, excepting the windows, stairs and 'letrinas,' a trio of deficiencies, however, that leaves the Penitentiary useless as a prison, although it would make a splendid barracks for troops. Mr D's model shows how to avoid these defects in the Azul prison, and we commend him to Governor Roach as he is 'au fait' in prison matters, having served as first class officer in Mountjoy Prison, as Deputy Governor in Richmond Bridewell, and finally nearly five years in the Penitentiary at Palermo.

We have to thank the Sociedad Cosmopolita for a copy of their report for 1881 and are truly glad to see that this most useful institution continues to flourish.

We hear that an old River Plate resident and former collaborateur of ours is now negotiating in London the sale of one of the oldest hotels in Buenos Aires to a joint-stock company, the proprietor, who has made a large fortune, being anxious to turn banker.

The match between the Zingari C. C. and Adela C. C., played at Chascomus on Monday the 20th inst., resulted in a victory for the Z. C. C. by 15 runs. There being several members unable to play on account of the 20th being mail day, the Z. C. C. mustered only 8 men, but nevertheless refused to play with substitutes, except, indeed, that Mr Allan kindly took Mr Caldwell's place on the field, the latter having received a bad blow from the ball. After the match both the elevens were sumptuously entertained by Mr Auld, whose hospitality is well known to all who come near to Chascomus. We hold the score for to-morrow's issue.

President Roca visits the Exhibition to-day, to decide finally on the day for opening it.

Mr Hutton and Miss Budge, the new teachers for the Scotch School, arrive here this morning in the Maskelyne. The Revd. Mr Fleming, Mr Lochore and other gentlemen will go out in a special steamer to receive them and bring them to shore.

Carnival will be buried to-morrow in the Plaza Independencia. Having gone down in the world, the fashionable Plaza Retiro now fights shy of him, dead or alive.

'La Dame aux Camelias' to-night at the National Theatre, with Madame Gualtieri in the leading role. All the High Life of the city will be there.

The intense heat yesterday brought the best new drink of the day to the front—The Champagne Cider which Mr Bennett of Calle Florida, the enterprising American importer, has introduced in this market. It is the most deliciously refreshing beverage, and there is not a headache in a tun of it.

The decree for the Lottery will be out next week. It will be the crack of doom for the Caridad Lottery in Montevideo and the similar institutions in San Luis, Uruguay etc. as Lord Mayor Alvear will apply everything but capital punishment to those caught selling tickets of any but the B.A.L., once the latter is started. The public will have a far better chance in the new Lottery than in any that has ever been opened here before, as it will be managed by the Municipality, and there will be no 25 per cent shave to go to a greedy 'empresario' for farming it. The public charities of this city are likely to derive an enormous revenue from this Lottery.

Colonel Olascoaga writes from the Cordillera to effect that Shahhueque and Namuncura are trying to induce the Araucanians to make a general attack on the Argentine forts, and then on the Chilian.

Already! By all the perfumes of Arabia! On Thursday night there was such an awful stench in the new theatre in Calle Florid a that the enjoyment of Madame Gualtieri's magnificent acting was quite spoiled.

We received yesterday a neat pamphlet with beautiful maps, on the triangular limits question between Buenos Aires, Santa Fe and Cordoba. Who the author is we have not the faintest idea. Perhaps some of our subscribers interested in these frontier lands would like to see the brochure.

The numerous friends of Father John Leahy, who sailed in the R. M.S. Minho for home, will be glad to hear that letters were received yesterday from on board, stating that even the short run down to the Mount had a most beneficial effect, and the Revd. gentleman was much better and stronger.

Trovatore to-night at the Politeama, by the Italian Opera Company, which is an excellent one.

The interesting republic of Venezuela would be unrepresented in the Exhibition but for the public spirit of Dr. Vega, its delegate here. It appears that the individual who was sent from Caracas with 1,500 pats to pay for adorning the section spent every rap of it on the way, and Dr. V pluckily pays the cost out of his own pocket.

A captain and an adjudant of the garrison fought a duel on Tuesday night in a house with closed doors, at 7 p.m., just as Carnival was commencing. The weapons were swords, and the captain was badly wounded.

The recent collision on the Southern Railway is said to have cost the company £8,400. The Manager has decided to carry no more laden bullock carts, as they are a nuisance and source of loss. Wool going by the Southern must henceforward be packed in 'lienzos,' or in any other way the sender likes.

Welshmen have queer names awfully queer names, but the queerest name for a Taffy we have ever heard of is Albertini, an appellation that smacks more of the hills of Calabria than of Snowdon. Nevertheless, we see that a Chubut colonist of the name has just died down there, leaving a small fortune, with nobody to inherit it. Some say deceased was an Italian, which would greatly simplify matters, as a cousin German to inherit the cash might, possibly turn up.

The London papers of 28th ult. contain most interesting official correspondence about the interference of the United States between Peru and Chile. The policy of the great republic has been completely reversed, and Uncle Sam allows Chile to eat Peru, guano and all, if she be so minded. The New York papers say that ex-Secretary Blaine's diplomacy was 'dirty and dishonourable.' The most astonishing letter of all those published is one which explains most and is marked 'personal' and 'confidential.' Mr. Christiancy, the United States Minister to Peru, writing to Mr Blaine in May, 1881, explicitly suggests a protectorate of Peru, and annexation after ten years, if Mr. Blaine adopted the suggestion as his own. The proposed Congress of American republics in Washington is all knocked on the head, as President Arthur says it would only give rise to bad blood.

The news from Asuncion is that the Municipality up there now make every paterfamilias who can afford it pay a hard pat. per month for every child he sends to the public schools. Quite right. The same might be done in another city we wot of, where wealthy men get their children educated at the country's expense instead of their own. At Villeta a party named Ortiz had a dream about a buried treasure of 70,000 ounces, and he is now breaking his back digging for the myth. Paraguayans are all as mad as hatters on the subject of buried treasure; no amount of disappointment knocks the mania out of them. Who has ever yet heard of a buried treasure being really *found* in Paraguay. Echo answers 'Nemo!'

The electric light of the Piaggio emigrant steamer Umberto I. will be placed in the Exhibition as well as that of the Admiral Brown. Let no fair dame be rash enough to put powder on her face when visiting the Exhibition while these powerful lights are in play, unless she have a special fancy for looking like the ghost of Hamlet's father, a most unprepossessing old gentleman, even while he was above ground.

The new Water Works at Belgrano are going ahead like an express train under the energetic direction of Mr Dawney C. E. By the end of April the Belgranenses will have a better supply of water than dwellers in the metropolis.

Berlin 22.

Skobeleff, General of the Russian army, has pronounced a discourse full of violent expressions against the German Government and population.

This conduct of a personage of so high a character as General Skobeleff has greatly affected public opinion, and the press unanimously invites the Imperial Chancellor to friendly beg the Czar to disaprove publicly the opinions expressed by the General.

M Roustan, Resident Minister of France in Tunis, has just been named to take charge of the French Legations in Washington.

The Skobeleff incident terminated peacefully. The Emperor of Russia, acceding to the wish of the German Government, has disapproved categorically the language of General Skobeleff, and affirmed once more the sentiment of mutual friendship which unites the Empires of Russia and Germany.

Feb. 24th

Patacones	25.02
Cedulas A	99½
Cedulas E	82½
National Bank Shares	129½

The market opened to-day under the influence of the favorable telegrams from London and an intense heat. Some few operations were effected in gold here and there at 25.02 for cash. For end of the month 20,000 pats were sold at 25.02½, and for end of March some small transactions were made at 25.10. The attention of the market is drawn to the general dullness of affairs; barring National Bank Shares there is very little doing in the market. Operations in gold and Cedulas are insignificant; in wools the business of the moment is only a shadow of last month's activity, the saladeros are at a stand-still, so to say, both here and up rivers. In land, several private operations have been effected, but particulars of same are not known to the public, and the sales in general are kept quiet.

The mails from Europe give some most interesting particulars of the state of the Paris Bourse. The 60 members of the Parquette had to meet differences to close on 60,000,000 francs, and bankers had to step in to prevent the fashionable assembly of brokers smashing. One agent had to meet 15,000,000 francs differences on the operations of his clients. Where are the Buenos Aires brokers alongside such figures? Several failures have also taken place on the London Exchange, amongst others Messrs Da Costa & Fuld, Mr Joseph Da Silva, Messrs Manners Sutton & Graham, Messrs Nathan & Hertz, and Mr Charles C P Ray (trading as Charles Ray & Co.). In Dublin a well known broker failed with liabilities of £200,000 occasioned by dabbling in Mexicans. In Glasgow also a heavy firm suspended payments. In fact the London papers to hand teem with failures occasioned by the settlement of end of January.

The feeling in the National Bank Share market is very bullish, and there is a stand-from-under-feeling amongst the bears, and those who have sold short. The Italians won't sell and the situation is one to inspire little confidence in the settlement at the end of the month. Rates are very firm and look very rising. There is a general opinion that the 'descubierta' sales are large, and that several parties have now to enter the market and buy back. The business during official hours was large, over 7,000 shares sold at prices that astonished many outsiders who are not aware of the under-currents in the speculation. There were several rumors current in the market, referring to the placing of shares in Italy, amongst the merchants of Genoa and the retired gentlemen on the Lago di Como, but they can only be chronicled as manœuvres of the bulls. It was currently reported in the market that the Italians had got a fresh credit of £100,000 stg.

In Cedulas there was a great scarcity of business. The transactions in Series A fluctuated between 99⅛ and 99⅝. Series E is now quoted at 82½, but the scrip is weak and few buyers are to be found in the market at the present moment

The sales at the ring were as follows:—

Cedulas—
For cash E 10,000 at 82½
For Feb. 25th A 35,000 99⅝-½
Sales, 45,000.

Nat. Bank Shares—
For cash 84 shares 129½-½-½
For Feb. 25th 100 shares 129⅝
For Feb. 28th 5,600 shares 129½-½-⅝-130-½
For March 31st 1,250 shares 126-½-½
Sales, 7,034.

The Villarino sails on Sunday for Patagones a full ship, crowded with passengers and cargo; we may state, having made a trip in this steamer to Patagones and back, that she is really a credit to the Government, so excellent is the order, discipline and treatment on board. Her Commander Captain Spurr is a careful and experienced seaman, and his high testimonials he has won by long and good service. His first Officer Mr Simone is an Irish seaman, having passed his examination in Cork, and there is no better pilot and officer on our Coast. In fact all Captain Spurr's officers are well trained men, and his engineers are country-men of long service and the highest character. As to the treatment on board, we can only say that living on board is the same as at one of our best hotels, and the fear first class passengers have on board is eating too much; the order attention and strict discipline on board, reflects the ability of her Commander Captain Spurr, whose name on the South Coast is so popular that it is a household word. It is much to be desired that we had more such steamers in local service as the Villarino, and the Government merits the public thanks for keeping on so important a route as Patagones so excellent a steamer, running for the public and so well and ably commanded.

We have been favored with the following late telegram from Antwerp:—

"Business very calm.
"Decline probable.
"Good combing wools frs. 5 to 5.15."

The linseed at present arriving in the market is stated to be exceptionally dirty and stained. Good qualities of the article are very scarce.

The very heavy arrivals from Sta. Fe are gradually driving down the prices of wheat. Both wheat and flour are falling in consequence.

Five large Jaguars have been killed on the estancia of a well known Lincoln estanciero.

£30,000 stg worth of bullion is expected in the Gascondi for the National Mint.

The heat was so intense toyday that several well-known Shipbrokers were utterly unable to make their rounds about town.

Mr Girand, of the firm of Escande & Girand, left to-day in the Gironde. We wish him a pleasant trip. He takes to France two magnificent criollo potros.

Talking of the crisis on the 'Bourse', the German financial papers state that there has not been such a crash since the memorable Koeniggratz defeat, when Austria tumbled and dragged with her the Paris exchange: at that time the differences on the Bourse only amounted to £1,000,000 stg. Messrs Stern and Rothschild and the Banque de France were making arrangements last month to lend the Parquette of the Bourse 100,000,000 francs.

Government Bills are offering in the market at 9 o/o; takers scarce.

Mr Leighton Jordan, who has returned from Montevideo, was enveloped in friends; we are happy to say he is now convalescent.

The French mail s.s. Gironde sailed to-day taking a heavy mail and the following cargo:

950 bales sheepskins
521 dry hides
300 carneros for Rio

Everyone is talking about the Governors who are now assembled in town, and the splendid opportunity afforded for these men to arrange all their questions about limits, and live in harmony up the country instead of as a pack of Kilkenny cats.

Mr Lima has introduced before the Municipality a brilliant project for the next Carnival. Nothing less than the 'Boeuf Gras of Paris, and pomos only to be used on the first two days of Carnival.

The steamer Paxo is expected hourly, she was run into by another steamer and suffered some averia and put into St. Vincent, but she obtained the necessary repairs and has sailed for the Plate.

The great auction of prize cattle at Mr Reid's estancia on next Monday is the talk of the whole market, we believe it will prove a brilliant success. Free Railway tickets at Baltar's.

Little doing in exchange; on London 49½. Montevidean exchange ½ o/o premium.

Discounts are easier now at 8 o/o for paper and 7 o/o for gold.

Messrs Johnson, Gaibisso & Co. have chartered the German barque Peter Sappish, to load bales in San Nicolas for the continent at 17s.

The Provincial Bank discounted to-day 7,500,000 m/c. No gold was discounted.

4,000 salted hides from Podesta's were sold to-day at 47½ rls gold: weight 65 lbs.

The better news from London and the lowering of the Bank rate has produced a better feeling in the market. Discounts are already easier and gold is weakening. In exchauge, nevertheless, there is not much doing.

The arrivals in the wool Plaza were small to-day, and very few operations were done.

At afternoon a very brisk speculation set in for the end of the month in National Bank shares. Sales, nevertheless, are difficult, as few are found in the market to sell. The stock remained very firm, and large numbers of shares were apparently sold at 130½ and 130¾. For end of March about 900 shares sold at 126½ and 126¾; but the market closed weaker for the latter date at 126½, buyers. Many attribute the firm aspect of the market to the favorable news from Europe, as the bulls finding the money market easier, have been able to get larger credits in the last 24 hours, but the real matter of the rise in the market is the corner of the bears, who are buying in, having sold at descubierto. In gold little or nothing was done. In Cedulas plenty of Series E offered on the market, but few buyers at rates demanded by holders.

Baltar and Quesada's auction mart was crowded to-day. Mr Casares's potrillos sold cheap, although very fine animals: the principal horses sold were:—

Sassafechato	$ 7,000	buyer	Sr Airla
Guido	7,000	"	"

The wool arrivals of the fortnight shew a gradual falling off, and the market can no longer rely on the former steady remittances from the inside partidos. There must yet remain outside over three million arrobes of wool. The business of the fortnight may be calculated as follows:—

Arrivals	250,000 arrobas.
Sales	250,000
Stock	7,140 bales.

The figures of the season up to date are as follows, as compared with 1880/81:—

	Arrobas. 1881	1882

Total sales	2,032,000	3,600,000

The export of wools up to date of the two seasons has been as follows:—

In the shape of "bolas", the following is worth mentioning:—

"The French papers announce final satisfactory arrangements between the Banque Transatlantique and the Argentine Charge d'Affaires for the issue of a loan of £4,000,000. This large capital to be invested in the creation of a "neutral" city in the Province of Buenos Aires."—*Telegrafo Maritimo.*

We take the following from Mr John White's steamship circular, under date London, Jans, 1882:—

The shipping trade of the past year may be said to have commenced well, to have continued good and to have ended better. It is needless to remind you that at the commencement of this year the shipbuilding yards were fairly well employed, and a good demand was arising, principally on French account, owing to the encouragement given by the Bounty Bill then passed by the Lower Chamber, and which has since become law. This demand has continued, new combinations of ship owners having been formed in France for running various trades, and a large amount of new and second hand tonnage has been bought, as well as considerable contracts for building made. New shipbuilding yards have been opened in France; nevertheless our builders are still able to compete with all rivals in giving better value and quicker delivery. Italian and German ship owners have also been very extensive buyers here, although the Bounty bills spoken of in their respective Parliaments have not gone further than the preliminary of proposals. Further progress has not been made with the bill spoken of last year in the American Senate, to remove the 'handicap' which at present precludes Americans occupying the position they should as carriers in our ocean service.

Whilst foreigners have very materially assisted the shipbuilding yards with their orders, and advanced the prices by their demand for ready tonnage, there has been an active business done for account of English owners, and the co-ownership principle seems to encourage capital by shareholders limiting their liability under the Joint Stock Companies' Acts, and thus many who feared the liabilities connected with shipping property are now induced to invest in such; the very heavy losses in the almost unprecedented gales we have had during the past year have also necessitated many purchases. The largest class of tonnage built and being built is for our English companies and owners, many vessels of 4,000 and 5,000 tons being in course of construction. Ships like the Servia, 7,392 tons gross, 1,000 h.p.n.; City of Rome, 8,415 tons gross, 1,500 h.p.n.; Rome, 5,013 tons gross, 1,000 h.p.n.; Austral, about 5,600 tons gross, 1,250 h.p.n., and a boat for the China trade said to be capable of carrying 7,000 tons of tea and steam 18 knots, are proof our ship owners have not lost enterprise through foreign competition. Several steamers of considerable size have been contracted for for Australia and New Zealand, and it is to be remarked colonial owners have made rapid progress in the development of steam communication in their local trades.

With increased activity in the yards, there have been demands for increased wages by the men, and more than one strike has occurred; the most important being the strike at Sunderland, which lasted for three months, and as a consequence much of the work that should have been delivered and made room for other orders is still unfinished.

The iron market has advanced, plates being to-day 20/- higher than at the commencement of the year, although in the spring they had declined; the present prices for new boats, which are fully 15 o/o more than 12 months since, are due from increased cost of material and of labour, and increased demand, and with these legitimate causes there is no prospect of any decline for a considerable period. Most of our builders, with the exception of one or two new yards which the active demand has encouraged to be opened, have orders booked which will keep them fully occupied to the close of this year, and many are not likely to have a vacant berth for 18 months, therefore should no important strike occur, which would be very sanguine to expect, there is no probability of buyers for either new or second-hand boats suiting their requirements with more advantage by waiting.

The long voyages to Australia, China, West Coast of America, &c., continue to encourage steam tonnage, and the trades which were thought by their distance would be conserved to the sailing ships are readily supplied with the speedier mode of transit; nevertheless there has been a very active demand for sailing ships, more especially iron vessels, which have commanded very good prices and many been laid down, one yard alone having eight vessels of from 700 to 1,700 tons register building.

In the loading berths there has been very great competition. Conferences of the loading brokers in the principal trades, with a view to establishing remunerative rates, have been held, but the arguments for and against any combinations are so many it is difficult to say whether such can permanently last, the competition to break down the ring in the Australian trade has been severe, goods being carried out to Australia as low as 12/6 per ton.

The Steamship Companies and many of the private ownerships have paid during the past year liberal dividends, proving that although the increase of tonnage has been very great, our yards having delivered a larger tonnage than in any previous year, the employment of sea transit, and new trades opened out, produce profitable employment for all under judicious management.

Freights:—For the past few years the main support to steam shipping has been in the American trade, but this year the freights from this quarter, for both grain and cattle, have been very unremunerative, causing one or two lines to be discontinued, and it is the more exceptional, that with the loss of employment to the large tonnage this market has in previous years taken, freights have been so good elsewhere. The lowness of American freights homeward is attributed to the Americans holding out for such high prices for their grain. Of late the rates have improved, and 5/- from New York or Baltimore are now obtainable.

From Calcutta 72/6 has been paid, Bombay 45/-, Java 82/6, Rice Ports 62/6, rates that were almost looked upon as of the past; outward business however has been very poor, 14/- to Bombay with half freight at 2/- per rupee has been accepted, and many steamers taken cargoes to this side of the Canal and gone on in ballast. From the Black Sea and Danube employment has all the year been good and engaged a large amount of tonnage.

For Breeders and Amateurs
The Famous Stud
OF THE
Establishment
Las Barrancas
Mares and Colts
Splendid Thorough Bred RaceHorse Sires, Durham Bulls and Cows
Rams and Ewes.
In one word Liquidation of the celebrated establishment of
Patrick Reid, Esq.
[In charge of JAMES CHURCH Esq. Stud of
Las Barrancas
On Monday February 27th
at 12 o'clock

We shall sell the stock of above breeding establishment so justly famous for the many victories achieved on the turf by the excellent animals bred there.

Estancieros are well aware of the patience and untiring zeal displayed by Mr Reid in forming this stud farm, as he selected and imported into this country, animals of great merit which have been under the immediate charge of Mr Church. Seldom is there an opportunity of this kind offered, and this is due only to Mr Reid's determination to retire from business.

Zenobio, San Jeane, Venus, Toscas, Pichon, etc, have given on our race courses ample proof of their blood by carrying off the highest prizes. With such facts before us, it would be quite superfluous to praise the breed of Las Barrancas.

N.B. There will be a special train and carriages at the station to take out and bring back all parties interested.

Una area de campo compuesta de dos leguas cuadradas de abundantes pastos, y cuyos linderos son los señores Emilio J Perez, Juan P Caurel, Puerto de la canal y J A Lousteau.

Uno de los mejores elogios que podemos hacer de estos campos es que el Gobierno de la Provincia vendio el 7 de Febrero en este mismo partido a razon de 600,000 m|c legua, y en el de Juarez por mas de un millon de pesos legua hace apenas un mes.

El dueño de este campo al ponerlo la base de 170,000 m|c legua, ha tenido en vista atraer el mayor numero de los pequeños capitalistas para que ellos puedan comprar areas menores, relativamente a las que hoy se estan vendiendo y que ellos determinan en el acto del remate cual es el valor de esta fraccion.

Este campo esta perfectamente situado y dista unicamente 14 leguas de Juarez.

Campo de Inmenso Porvenir
Situacion Inmejorable
En nuestra casa Alsina 78

De tantos campos que se han ofrecido y se ofrecen todos los dias en venta, pocos pueden ponerse en parangon con este lote y especialmente con los que acaban de venderse en la Seccion 10 a razon de 101 ps. la hectarea, o sean 271,000 ps legua cuadrada.

El campo que ofrecemos en venta esta mensurado y amojonado por el Sr D Angel Silva, y sus pastos son abundantes y riquisimos, componiendose en gran parte de gramilla, trebol, alfilerillo, cebadilla, cola de zorra, etc. garantiendo que no hay medanos en toda la fraccion.

Esta a igual distancia de Buenos Aires que los campos del Venado Tuerto que se venden hoy de 300 a 400,000 ps. legua.

Pocas veces se venden campos en iguales condiciones, y se vende unicamente por ausentarse uno de los socios para Europe, maxime que hay quien lo arriende hoy en 12,000 pesos (doce m|l) la legua.

Para demostrar lo infimo de la base que se ha fijado para la venta, queremos recordar algunas ventas, efectuadas en estos ultimos tiempos. algunas de ellas en estos dias.

Al señor Cadmus en la Seccion XVII por 136,000 ps legua, comprada para una compañia belga que esta ya mandando los materiales para alambrar el campo.

Las 9 leguas vendidas por el Dr. D. Marcelino Ugarte al nuevo Banco Ingles a razon de 160,000 ps al contado la legua, y se pobla-ran a no dudarlo en poco tiempo.

Esta fraccion que anchada queda a muy poca distancia de nuestro lote.

Los campos que acaban de venderse en la seccion 10 y cuyo termino medio da mas de 240,000 ps por legua, campos infinitamente inferiores, y para que no se crea que es charla nuestra los vendedores dan al comprador, por medio de un documento, un plazo de seis meses para que puedan cerciorarse de la verdad de lo que decimos y de que si no son mejores estas tres leguas que cualquier fraccion igual de las 36 leguas de esa seccion 10, se anulara la venta y se devolvera el dinero pagado.

Muchisimos son los pobladores que hay por aquellos parajes, cerca de alli la fraccion marcada en el Plano con Pirondo y Escalante esta poblada por dos vascos, a quienes se lo vendieron aquellos.

Sabido es que Lincoln es el partido que se ha poblado mas rapidamente, y lo prueban los grandes establecimientos de los señores Duggan, Ostendorp, Samsen, Ricketts, Sanford, Brown, Carabassa, Lopez, Martinez de Hoz y muchos otros vecinos pobladores, no especuladores, y que no venderian sus campos por ningun precio.

La seccion 17 que hace tan poco que fue vendida por el Gobierno de la Provincia, esta llena de nuevas estancias como la de los Sres. Romero, Allan, Wilson, Cabral y otros.

En cuanto a pronta comunicacion con los grandes centros, tenemos varias lineas de ferro-carriles que no son proyectos, sino que estan ya, puede decirse, en via de construccion, y antes de dos años tendremos el ferro-carril Trasandino, que pasara cerca de este campo, y el otro que ira a Tranquelauquen.

Pocos son los campos que le quedan para vender al Gobierno de la Provincia, y pueden estar seguros los compradores que todos ellos se venderan en las mismas condiciones de la seccion 10 y del campo vendido el 7 del corriente en el partido Nueve de Julio, cuya base era de $70,000 legua y fue vendido en 240000 pesos legua al Sr Unzue.

Queremos hacer presente tambien que la gran area vendida por el Sr Don Jose G Lezama al Sr Don Eduardo Casey, queda diez leguas mas afuera que este ofrecido en venta.

Con todos estos datos y las garantias de los vendedores respecto a la bondad del campo, este vale a no dudarlo $120 la hectarea !!! y con los 8 años de plazo sin interes vale 350 a 400,000 pesos la legua.

Los compradores firmaran pagares hipotecarios por los ocho plazos, entregando la octava parte al contado.

Prevenimos a los interesados que desde hoy tendremos a su disposicion un plano indicando la posicion exacta del campo, para que puedan mandar revisarlo con tiempo.

Remataremos a las mas alta postura y dinero de contado, por orden terminante de su propietario.

Una de las mejores fracciones de campo al Norte y distante 15 leguas unicamente de la Capital.

La calidad del campo es de lo mejor que existe en cuanto a la clase de pastos, pues es de lo mas aproposito no solo para ovejas, cabañas invernadas, etc, sino para sementeras de toda clase de grano, pues la proximidad a los dos puntos de embarque que son Zarate y Campana, los gastos de trasporte son infinitamente mas reducidos que de cualquier otro punto de la Provincia.

Se sabe ademas que el Gobierno Nacional tiene la idea de prolongar el ferro-carril a Campana, por medio de un ramal hasta Zarate, que aumentaria naturalmente el valor de este campo.

Tanto este partido como los colindantes son por la calidad de sus tierras y pastos, los mas preferidos por la colonia irlandesa que como se sabe es la que ha sabido darle el verdadero valor a nuestra tierra, destinandolos para la cria del ganado lanar, que les ha dado tan brillantes resultados y como dicen ellos muy bien que hay campos como por 200,000 pesos legua y baratos por millon y medio y dos millones pesos la legua.

Todo esto que antecede son hechos, que esta en la consideracion de los que saben lo que puede dar una propiedad en condiciones como esta y que ahora mismo puede arrendarse a razon de 200 ps cuadra al año, y que equivale a un interes de 14,20 p§ al año sobre la base de 1500 que se ha fijado para la venta.

La venta se hara en dos fracciones, a saber:

Lote num. 1—400 cuadras cuadradas.
" " 2—333½ id id,

Pero en caso que hubiese interesados en nuevas lracciones se podran hacer lotes al gusto de los licitadores.

Otra de las ventajas que no deben perderse de visto es la siguiente: el primer lote solo dista una legua escasa y el num. 2 media legua del pueblo Capilla del Tedor.

Este campo es conocido y esta señalado en Registro Grafico por de Gozales y sus linderos son al Este Echehon, al Oeste Enrique Bird, al Norte E. Collingican y al Sud el vendedor.

Titulos de primer orden!

Por mas pormenores y por planos ocurran a nuestra casa Alsina 78.

NOTA—Las personas que quieran inspeccionar el campo pueden ocurrir a nuestra casa por una orden.

El campo arriba mensionado compuesto de dos leguas cuadradas mas o menos, ubicado en el Partido de Dolores, distante 7 leguas de la ciudad del mismo nombre, lindando con los valiosos Montes del Tordillo, Baldomero Diaz, Santiago Bello, Juan Lopez, escribano, y Simon Palomeque; esta marcado en el Registro Grafico de la Provincia, con el nombre de Juan A Diaz.

Es campo de superior calidad para ovejas, por las buenas cañadas que tiene, asi que en verano nunca faltan buenos pastos.

El campo para mayor facilidad de los interesados, se ha dividido en 4 fracciones de media legua mas o menos; pero podria venderse en uno o dos lotes de una legua cada uno o sera entregado amojonado en las dos primeras cuadras, pues la mensura hace muy poco que fue hecho.

En cuanto a la base yue son $350,000, nada tenemos que decir; este campo a las puertas de la capital vale el doble y una vez practicada la nivelacion de la parte Sud de la Provincia, valdra 50 p§ mas.

Esta propiedad reconoce una hipoteca a favor del Banco Hipotecario por valor de $f.18,000 de los cuales hay amortizados $f.4,000 y con los cuales podia seguir el comprador si le conviene.

El actual propietario vende este campo por no poder atender dos establecimientos, queriendo dedicarle todo su atencion a otro de mas aguera.

THE SCOTCH CHURCH.

RESIGNATION OF THE REV. JAMES SMITH M. A.

We give the following extracts, from our contemporary the *Buenos Aires Scotch Church Magazine*, of the report of the last General Meeting of St. Andrew's Scotch Church congregation.

Those who have the privilege of knowing the venerable clergyman who has so long ministered to the spiritual wants of the Scotch Community in this country, as well as the British residents at large, of all creeds, will endorse every word Mr Thomas Drysdale and Dr Alston have so eloquently said in reference to his resignation, while rejoicing that Mr Smith will continue to live amongst us. His expected successor has won his way with all since his arrival here, and Mr Smith's mantle could not possibly fall on more worthy shoulders.

The following Resolutions were carried :—

RESOLVED — That the number of Trustees shall be increased from four members to five members.

RESOLVED—That Messrs. Mac Clymont, David Methven, and William Anderson be re-elected for current year.

RESOLVED—That Messrs John Drysdale and James Dodds be appointed Trustees to fill the vacancies.

Mr Dodds has accepted, but Mr John Drysdale regrets his inability to do so, and in his stead Mr H W. Lochore has been asked, and has agreed to accept office.

The Trustees for the current year are consequently—

Mr Robert McClymont
Mr William Anderson
Mr David Methven
Mr James Dodds
Mr H W Lochore

The ordinary business of the Meeting being completed by the election of Trustees, the Chairman requested permission to vacate the Chair, and suggested that Mr James Dodds should conduct the special business about to be discussed, Mr McClymont's proposal being accepted Mr. Dodds took the chair.

Mr Thomas Drysdale was of opinion that no time should be lost in obtaining an organ and felt sure the fund could easily be collected, and provided the idea was carried out at an early date Mr Drysdale offered the handsome subscription of £200 towards cost of the Instrument.

RESOLVED—That a Voluntary be played before and after morning and evening service, that the playing over of the last line of the tune at conclusion of each Psalm or Hymn be left to discretion of Choir Committee.

THAT an organ should be obtained in place of present Harmonium.

The Chairman then said that the Congregation was aware that the Rev. Mr Smith had intimated to the Trustees that it was his desire to resign the duties and emoluments of the Church early next year, and as Mr Smith had addressed a letter to the Trustees he would ask the secretary to read same as follows :—

Bs. Aires, 19 h January 1882
To the
Trustees of the Scotch Church.
Gentlemen :

"After 32 years of arduous labour the thought has naturally occurred to me, that in the interest of the Church and of my own health it would be advisable at no very distant date to resign a portion of those duties in the discharge of which I have experienced so much kindness not only from the members of our own Church, but from the whole British Community.

"As Mr Fleming's present engagement will not terminate till November and as it is to be hoped that by the Divine Blessing his health will continue to improve so as to enable him to undertake all Congregational Work, I propose to see him over the hot season of 1883 and at the end of April of that year to resign to him the Church and its emoluments, I would then take a trip home for a few months and, after my return, would hold service, baptise and marry as might be expedient, but in so doing would be bound down to no particular sphere and would be free from all responsibility.

"I would thus still be able to be of some use to the cause of Christ in this land, and would not be separated from those old and valued friends who have stood around me from the first, and without whose assistance I could have done little in carrying on the important work in which I have been so long engaged.

I remain, Gentlemen
With the greatest esteem
and affection,
Your friend and pastor,
James Smith.

Dr Alston said: 'Mr. Chairman and Gentlemen.'

"After listening to the reading of the letter received from the Revd. Jas. Smith I feel sure Mr Chairman, that I faithfully interpret the feeling of this entire assembly, when I affirm that the emotion we all experience is great. The event Mr Chairman, is a momentous one, for Minister and Congregation. After a memorable service of 32 long years, the venerable pastor of this Congregation comes before his people, claiming privilege, advancing age, with failing energies, reasons for our releasing him from the cares of this charge. At the same time expressing his desire (D V) at a future time, to be again near us, ever ready to help us to the best of his ability, should his health permit of it. Having personally heard from Mr Smith, that this is really his desire and intention, listening to the letters just read, and the reasons therein expressed for the grave step he has taken, I feel constrained, Mr Chairman, to say, that in my opinion, a graceful act on the part of this meeting would be to meet the spirit of Mr Smith's request in the direction he desires, by conceding the request sought. Mr Chairman, I do not require to draw the attention of the meeting to the grace and nobility of this voluntary resolution of Mr Smith; we all know the pastorate is for life, and no call, other than death, or default, releases the congregation as a church from its obligations to him. Of his own free will and impulse he resigns these obligations and emoluments, in favor of the church, in the interest of the cause of his life's labour. Mr Chairman, in the presence of such acts, I am unable to take upon myself to express the feelings of this congregation on the present occasion, neither am I able nor will I attempt to enter upon any appreciation of the many and great services rendered by the Revd. Mr Smith, during the long period he has laboured among us. Simply because I feel unable to do the subject the justice required, and as already hinted I am unwilling to try, when I know I would fail. I therefore Mr Chairman move that this meeting accede to Revd. Mr Smith's request, and beg at the same time to suggest that it do elect, and depute, a committee from amongst its members who together with the church trustees, will convey this decision to the Revd. Gentleman, and also arrange to express to Mr Smith in an appropriate manner, what all feel, but what only a gifted few on the impulse of the moment could express, and for which I, particularly at this moment, lack both the ability and the language necessary."

"Mr. Thomas Drysdale said :

Mr. Chairman and Friends,

I have been requested to second the resolution moved by my friend Dr. Alston, "that the resignation of the Rev. Mr. Smith be approved by this meeting." As you are aware this resignation is voluntary on the part of Mr Smith and in acquiescence with his wishes will doubtless be approved by the meeting.

"Still my friends, only bethink yourselves, it will not do for us nor can we forget the past—the pious and painstaking labours of Mr. Smith live in the memory of all of us, and I am perfectly sure that if a Minister of the Gospel speaks by example as well as by precept, then Mr. Smith has truly spoken well and his daily walk will be vividly remembered while many an eloquent and thrilling discourse shall have lost its place in our recollections. If there is a force in self-denying and self-endangering action for the sake of others, then has that force been all along most manifest in the life of Mr. Smith.

"Let us look back for example to '71 when the maligant fever made such havoc in this town how did our Minister discharge the duties devolving upon him ? Others fled, but he remained in the steady exercise of an almost holy faith and love immoveable from his post and task—neither day nor night kept him back from running amongst the sick and dying regardless of distance, age, creed, or nationality.

"But lask you to-night if you ever knew him to be wanting in the house of trouble and trial when those who were near and dear to you were ill? (many I trust in glory now): there in defiance of he a or storm was the warm-hearted man by the sick-bed of anguish. My friends, my heart almost fails me when I take a restrospect of the thirty-two years past labour of Mr. Smith, and I feel that as God never forsakes his beloved servants we also should be steady in our affection and attachment to one who has broken amongst us the Bread of Life, who has served the Lord so long and sincerely and guided the steps of the congregation so faithfully and wisely. My friends, all the aged and true preachers of God are entitled to this our unabated attachment.

"They want but little here below
"Nor want that little long."

These sentiments expressed by Dr. Alston and Mr Drysdale were warmly applauded by all present.

The following resolution was then carried :

RESOLVED—That in accepting the resignation of the Rev. Mr. Smith in accordance with tenor of his letter of 7th inst., a special Committee be appointed consisting of Messrs. Thomas Drysdale, W. Wilson, R. Inglis Runciman and Dr. Alston in conjunction with the Trustees of the Church, to convey to Mr. Smith in an appropriate address the feelings of the Congregation.

It was also resolved that on Mr Smith's retiral from the Church, a suitable presentation should be made to him as a mark of the Congregation's appreciation of the valuable service rendered by him to the Church, and as a slight testimony of the regard and esteem which they entertain towards Mr Smith.

The Chairman then said that in view of Mr Smith's resignation, it was necessary to consider now the appointment of a successor, and he felt sure he was expressing the unanimous wish, not only of the meeting, but of the whole congregation when he said that he earnestly hoped the Rev. J. W. Fleming would feel able to remain amongst us.

The following resolution was then carried :—

RESOLVED—That the Rev. J. W. Fleming be requested to accept the appointment of assistant and successor to the Rev. James Smith from the 1st November prox. and consequent on Mr Smith's resignation to accept the charge of Saint Andrew's Scotch Church from 1st May 1883.

RESOLVED — That the Stipend guaranteed to Mr Fleming from 1st May 1883 be not less than £800 per annum.

RESOLVED — That Messrs Robert McClymont, James Dodds, William Anderson, David Mathven, junior, H W Lochore, and R Inglis Runciman be appointed as a special Committee to embody the foregoing Resolutions in form of an address, and arrange to give the congregation individually an opportunity of attaching their signatures to same.

A vote of thanks to the Chairman closed the meeting, which was more numerously attended than any previous meeting of the Congregation for many years.

Dysentery, Cholera, Fever, Ague, Coughs, Colds, &c.

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, Dr. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observa on during many years. In Choleratic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy,s Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"S strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.
